

# No-named Participants in International Policy,

## Security Beyond Governments and Armies

# **AGENDA**

- I. Introduction**
- II. Syria -the rebel forces, transnational terrorism and religious extremism**
- III. Ukraine - a multi-ethnic background, (un)known uniformed men and local self-defence forces**
- IV. Afghanistan - international terrorism, organised crime, narcotrafficking**
- V. Technical answer to security threats**
- VI. Conclusions**

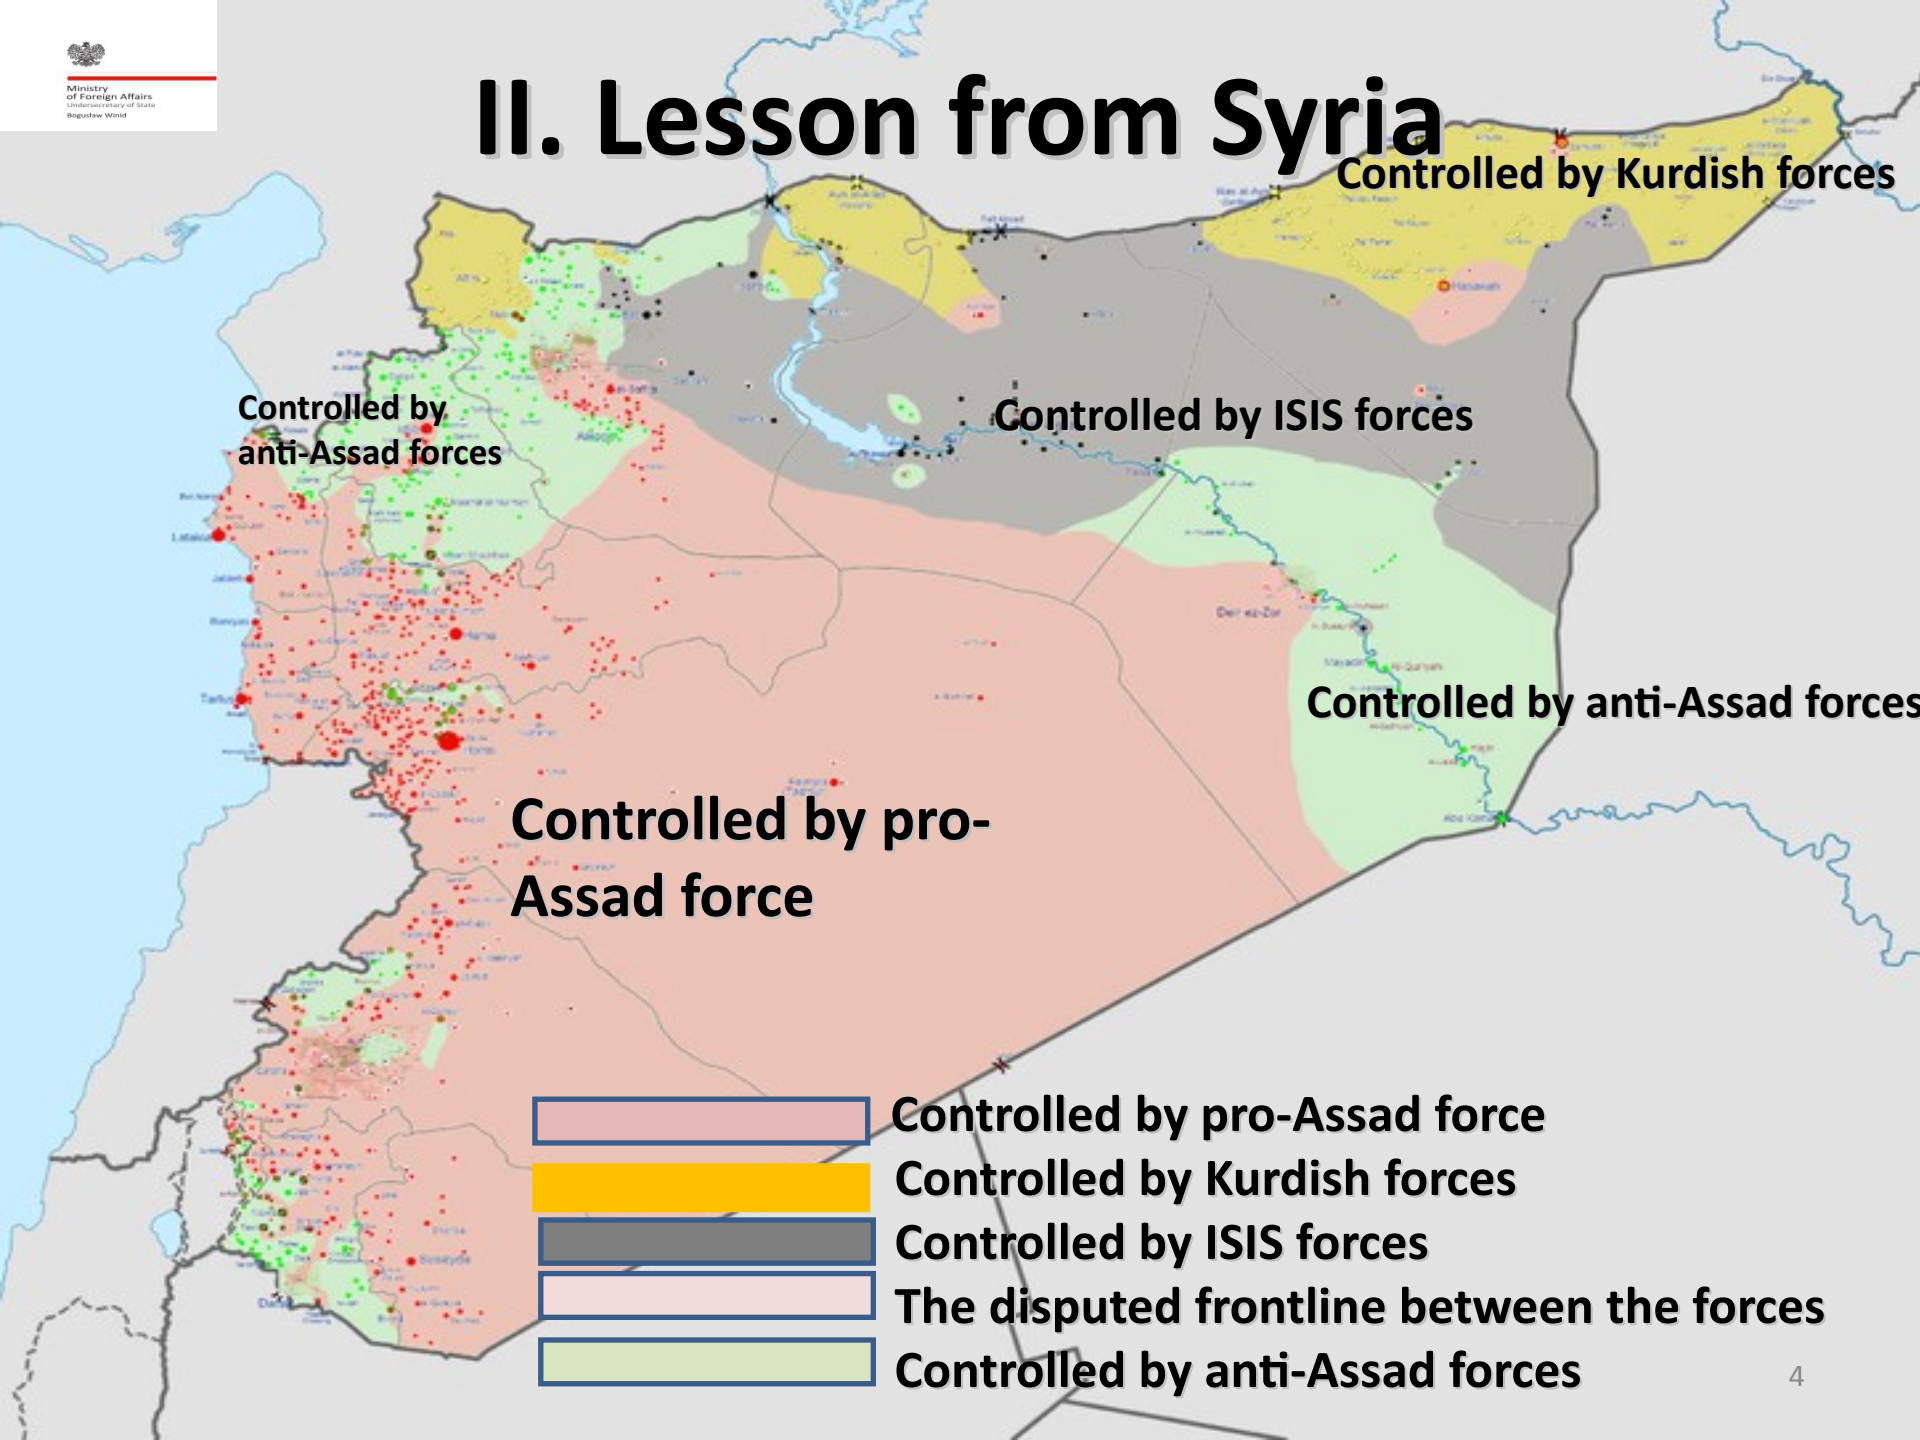

# I. Introduction

**Modern warfare-the absence of battle lines between adversaries and the transformation of social conscience into the main object of influence..?**

## II. Lesson from Syria

# III. Lesson from Ukraine

No insignia of the State identity but well equipped

## IV. Lessons from Afghanistan

**Main role of ISAF – to assist the Afghan government in establishment of a secure and stable environment. ISAF forces assist Afghan National Security Forces in security and stability operations throughout the country and are directly involved in the development of the ANSF through mentoring, training and equipping.**

# AFGHANISTAN

## IV. Lessons from Afghanistan cont.

- **Command and Control**
- **NATO Intelligence, Surveillance and Reconnaissance Systems and the Alliance Ground Surveillance.**
